## TAFT'S TRIP TO TEXAS.

Says No Arrangements Are to Be Made This Winter.

## OWNS NO LAND IN STATE.

Ranch That He Is Credited With Being the Possessor of Is the Property, He States, Entirely of the Wife of Charles, His Brother.

Cincinnati, Nov. 6.—Judge Taft said there is hardly the slightest possibility of his going to Texas to hunt at any time this winter. He added that no arrangements of any kind have been made looking to such a trip and that none are contemplated.

Judge Taft said he would appreciate it very much if the erroneous expression be corrected that he owned any land in Texas.

"The ranch referred to," he explained, "belongs to my brother's wife, Mrs. C. P. Taft. I don't own an acre of land, nor have I any interest in the ranch."

## Immense Cotton Exports.

Galveston, Nov. 6.—Galveston's cotton exports for the week just closing amount to 228,138 bales, breaking all records for any previous week. The total exports for the season are 1,072,036 bales.

## Attempted Arson Alleged.

Muskogee, Nov. 6.—A woman was arrested here on the charge of attempting to burn the millinery store of two sisters named Wagester. Fire Chief Temple had her arrested.

## Packing House Money Raised.

Fort Worth, Nov. 6.—Thirty citizens raised \$59,700 for a third packing house. Nelson, Morris & Co. will build it.

## MOST VIOLENT OF ALL.

German City Is Shaken Several Minutes.

Plauen, Germany, Nov. 6.—The most violent earthquake ever experienced here terrified the inhabitants at 5:40 o'clock Friday morning. Houses were shaken and people fled in a panic into the streets. The shock, which lasted for several minutes, was accompanied by sharp explosions and thundrous rumblings in the earth.

Sixty or seventy earthquake shocks have been felt here daily for the past week. They are now becoming less frequent but more violent.

The temperature of the medicinal springs in this vicinity increased 15 degrees.

## Gompers Ready to Answer.

Washington, Nov. 6.—Ready to answer before the convention the attacks which have been made on him for his course in the recent presidential campaign Samuel Gompers, president of the American Federation of Labor, left for Denver, where the twenty-eighth annual meeting of that organization begins next Monday.

In interviews printed in the Post Mr. Gompers is quoted as saying that he is not a candidate for re-election in the sense that he will seek the office, although he would be glad to serve again if it be the will of the convention.

"I am, however, in the American Federation of Labor to stay," said Mr. Gompers, "and if I do not stay as president I will stay in the ranks. I believe the course I pursued was proper and I think I have done right. I endeavored to give voice to the wrongs labor endured and I endeavored to have them righted."

## Advertise!

The speedy way to market a product is to give it publicity, and the newspaper is the medium through which to reach all the world.—Waco Times-Herald.

## TEXAS NIGHT RIDERS.

Governor Campbell Orders Immediate Investigation.

Austin, Nov. 6.—The immediate investigation of the report from Franklin and Holland of the appearance of night riders is to be made by the state. General Newton and Governor Campbell had a conference on the subject and as a result General Newton and Captain Rogers of the ranger force are more than likely to leave for Franklin to make investigation.

A report from Franklin is to the effect that a farmer named P. W. Petway had received a note signed "Night Riders" warning him not to send any more cotton to market and from Holland that two gins were burned. When seen the governor said he had received no official advices on the matter, but that he would see that all law-breakers are promptly apprehended and punished. Decisive steps are to be taken in the matter.

## Love's Authority Doubted.

Austin, Nov. 6.—Commissioner of Insurance and Banking Love received a letter from Colonel Cecil A. Lyon, in which he writes that he doubts the authority of the commissioner to subpoena him to appear and furnish the names of fire insurance companies that are reinsuring in foreign concerns. He declared, however, that when he goes to Houston, where his papers are kept pertaining to that, he will furnish the papers Love desires if it will be any satisfaction to Love, provided his (Lyon's) attorney concurs in his action.

## Governor Not to Leave State.

Austin, Nov. 6.—The governor said that it is not his plan to leave the state; that he is not going to Battle Creek or any other resort outside of Texas. He is likely to leave in a few days for Mineral Wells. The governor will likely appear as a witness in the Fiskville school book case.

## Football Player Dies.

Austin, Nov. 6.—Earnest Dickson, aged twenty-one, right end of the Arkansas university football team, who was injured in a game here by receiving a kick in the chest, from which peritonitis and pneumonia developed, died at an Austin sanitarium. His body was shipped to his home, Rogers, Ark.

## Tempting Bonus Offered.

Fort Worth, Nov. 6.—It is announced that both the Frisco and Santa railways are considering plans to extend to San Saba, which has just increased her bonus to \$75,000 which will be given to the first railroad to enter that city. San Saba is a large cotton market and this bonus, it is believed, will result in a unique race between the roads to build there first.

## Escape Made Through Window.

Bonham, Tex., Nov. 6.—The home of W. L. Kirkwood, eight miles east of here, burned while the family slept. They escaped through a window of a room full of smoke and flames. The house and contents were destroyed. The loss is \$4,000.

## Students Forced to Flee.

Washington, Nov. 6.—Fire which started in the kitchen of the Bliss Electrical school, located on the edge of the District line at La Coma Park, a suburb of this city, compelled nearly 200 students to flee for their lives in their night clothes. The building, which was a three-story frame structure, formerly the old North La Coma hotel, was completely destroyed. All of the students are believed to have escaped from the burning structure, but lost all of their effects. The loss is estimated at upwards of \$50,000. The building had been occupied as a school building only about six weeks.

## Ten Drown in Ocean.

Danzig, Prussia, Nov. 6.—The German coasting steamer Archimedes was wrecked and ten members of its crew were drowned. The vessel went ashore during a snow storm. Only three survivors were taken from the wreck.

## Bank's Doors Close.

Arkansas City, Kan., Nov. 6.—The Citizens and Farmers' State bank closed its doors. The bank commissioner has been notified. No statement is available.

## Hog Chain Stealing Charged.

Monongahela, Pa., Nov. 6.—James White is charged with stealing a hog chain weighing 2,000 pounds.

BRYAN, TEXAS, NOV. 7, 1908.

### REMOVE THE CAUSE.

All intelligent people know that for every effect there is a cause, and that the only remedy for an evil is to remove the cause. A recognition of these truths has led to the discovery of the cause of various diseases, such as yellow fever in human beings and so-called "Texas fever" in cattle. In every case where the cause is removed the evil ceases.

Thoughtful people are now much concerned about an evil that has scourged Kentucky and Tennessee and is now threatening Texas. Making reasonable allowance for exaggeration, there are enough facts to convince anyone who will consider them that there is real danger of a repetition in Texas of the reign of terror that has disgraced those states. Governor Campbell has been justly commended for his prompt action in response to the request of President Neil of the Farmers' Union, but in all such cases the difficulty of detecting the guilty has proven an insuperable obstacle to the forcible repression of the evil. In a communication to the Co-Operator and Farm Journal C. B. Metcalfe of Tom Green county discusses the cause and the remedy, and the Eagle reproduces a part of his letter and asks for the thoughts presented a careful reading by the business men of Bryan. Mr. Metcalfe says:

The growers of tobacco, robbed of the price of their labor and made desperate by the tobacco trust, and the weakness of those growers who continued to supply the trust with tobacco, stopped the selling of tobacco by forcible compulsion. The government of Kentucky exhausted its power attempting to prevent the operations of night riders, and to punish those who participated. The effort was futile. Tobacco was burned, trust agents killed and farmers maltreated, until now tobacco growers do not sell, and the trust does not buy for less than a price that will pay fair wages for growing tobacco. Night riding has ceased in Kentucky, for the cause is removed.

In some instances action of the night riding order is now beginning in the cotton country. There must be a cause for this, which, if not removed, will incite to outrages against buyers, sellers, ginners, growers, merchants and all business depending on cotton, and a total forcible paralysis of business will result.

The cause is that through the credit system cotton is being forced in the markets and sold for much less than cost of production. The farmers' organizations and farmers are doing all in their power to obtain a fair price in a lawful way by holding and marketing slowly, when allowed to do so by their creditors, so as to forestall and prevent or remove the aggravating cause of trouble, and the masses of growers of cotton are outspoken in condemnation of all unlawful acts. The history of recent events, however, will convince all reasonable observers that if this crop of cotton is forced out of the hands of the growers for half its cost in labor, as is now being done, the tobacco war will be trivial compared to what will occur with cotton.

The farmers are doing all possible to forestall and prevent the development of this trouble. If the bankers, merchants and others who are the beneficiaries of the credit system will

do their part at this time, part of this crop can still be saved from sacrifice, and those lawless men who are becoming desperate may be restrained from violence in the only way possible, by being made to believe that the supine indifference and neglect of the interests of all by the business people is to be changed into an active participation in a campaign for relief. The banks can profitably carry their debtors and refrain from pressing them. The merchants can then encourage their customers to hold cotton for a fair price, which farmers are anxious to do.

This crop of cotton will bring \$250,000 more than the price for which it is now selling. We can pay our debts, and night riding will have been prevented in the cotton country.

### MUST OBEY LAWS.

In a speech before the Cincinnati Commercial club Thursday night President-elect Taft said:

"Every business man who is obeying the law may go ahead with all the energy in his possession; every enterprise which is within the statutes may proceed without fear of interference from the administration when acting legally, but all interests within the jurisdiction of the federal government must expect a rigid enforcement of the law against dishonest methods."

The speech created a profound sensation among the substantial business men of the city who are members of the club, which gave him the dinner, which had been arranged long before the result of the election could be known, and they arose as one man to the sentiments he expressed. The speech, which was preceded by words of friendship and neighborly felicitation on the part of the distinguished guest, brought out the human side of the next president in a manner which was most touching and responded to with the greatest enthusiasm.

There will be a municipal election next April. It is yet five months off, but prospective candidates are fixing up slates, and it is time for citizens to begin to sit up and take notice. There is a prospect that some important issues will arise, such as the city water supply, a sewerage system and street improvement. The columns of The Eagle are always open for the discussion of policies, but never for attacks on persons.

Alpine business and mining men have started a movement for the revision of the Texas mining law. As it stands, there is no encouragement to anybody to invest capital in mining operations in Texas. The enactment of a just law would be followed by a mining boom in the trans-Pecos country.

The amendment to increase the salaries of the governor and lieutenant governor was defeated by an overwhelming majority. The people of Texas are not niggardly, but they feel that they are paying full value for the service they are getting.

William J. Bryan never uttered a greater truth than his post-election declaration that one can do great things without holding office. His career has proven the truth of it.

The doctors have announced that Governor Campbell has no organic trouble and, now the election is over, it is expected that his convalescence will not be long protracted.

One of the surprises of the election was the small showing the Socialists made, their vote being little, if any, larger than it was four years ago.

Nobody has said anything about Bryan being dead. The world now realizes that he is immortal.

### MAY WEAR TOGA TOGETHER.

**Bryan and Roosevelt Have Chances of Going to the Senate in Two or Three Years.**

President Roosevelt and William J. Bryan will possibly have the opportunity to fight it out to a finish in the United States Senate. The Senate as a future arena for President Roosevelt appeals powerfully to him, but he is not desirous of entering the Senate immediately after the expiration of his term as president, since he wishes to leave the field clear for Taft. Senator Platt's term expires March 4 next, and Elihu Root is favored by the president for this place. Senator Depew's term expires March 4, 1911. At that time President Roosevelt would feel himself free to re-enter politics. He will have been rested after his hunting trip and European tour.

Public men in Washington are intensely interested in the news that Nebraska has elected a Democratic legislature. There is no vacancy to fill in the Senate from Nebraska until 1911, so that the Democrats will have to hold the legislature more than two years from now if Mr. Bryan is to become a senator. The term of Senator Elmer J. Burkett expires in 1911. It is assumed that Mr. Bryan would be elected to the Senate by Nebraska if the state should have a Democratic legislature. Those who hope for a hot time in the Capital City ardently wish that Theodore Roosevelt and William J. Bryan begin service in the United States Senate together.—Galveston News.

Judge Kittrell wants to split the prohibition question so as to give the people a chance to vote on whether they will have full prohibition or prohibition of ardent spirits alone, allowing the use of beer and light wines. Not a bad idea.

### Dartmouth-Princeton Tomorrow.

New York, Nov. 6.—The only big football game to be played in New York this season will take place on the Polo Grounds tomorrow, when the eleven of Princeton and Dartmouth will line up for what now gives promise of being an interesting contest. In recent years Dartmouth has come to the front in football, and under the new rules it is expected that the Hanover boys will be able to put up a good struggle against Princeton. The contest is also of interest from the fact that it will give a line on the form of the Princeton team and the chances they will have in the annual game with Yale, which will be played in Princeton one week hence.

### Huge Tabernacle.

Spokane, Wash., Nov. 5.—Thirty thousand square feet of ground will be occupied by the tabernacle to be erected by the Spokane Ministerial association for a series of revivals by "Billy" Sunday, ex-baseball player, beginning the middle of December and continuing well into January. The building will seat 8,000 persons, and will be provided with adequate heating and lighting systems. There will be a choir of 500 voices.

### M. E. Missionary Meeting.

St. Louis, Mo., Nov. 6.—Preliminary business today occupied the opening day of the big meeting of the general committee for foreign missions of the Methodist Episcopal church, for which preparations have been going forward here for several months. The sessions are being held in the Lindell Avenue Methodist church and will continue until next Wednesday. The attendance of delegates and visitors is large and embraces many bishops of the church, noted missionaries, editors, ministers and officials of the general conference.

Field drawing of the A. & M. Texas football gridiron may be seen in show window of Brandon & Lawrence.

288-291

### Farm Uplift Commission Starts Work.

Baltimore, Md., Nov. 6.—The members of President Roosevelt's farmers' uplift commission, of which Liberty Hyde Bailey of Cornell is chairman, rounded up at the Agricultural College of Maryland today to organize and to hold their first hearing. The meeting is preliminary to an extensive tour of the country by the members of the commission, in the course of which they will visit agricultural colleges and confer with farmers' institute workers and others in all parts of the country.

One week from next Monday the commissioners will have a general session in Washington to meet the masters of the state granges and representatives of agricultural colleges and experiment stations. The session will last two days, and at its conclusion the commissioners will leave for the Southwest, going through Tennessee, Oklahoma and Texas, and thence through Arizona, New Mexico and California. Both the northern and southern group of the Rocky mountain states will be covered. On the return east there will be hearings in practically all of the Middle Western States. The party will return for a final hearing in Washington about the middle of December.

It is possible that H. Clay Pierce may remain in Texas for an indefinite time. In that case he may wear the uniform of one of the state's institutions.

A statistical item says: "For every ton of gold in circulation there are fifteen tons of silver." That's pretty near the ratio of 16 to 1.

The Houston Post says: "The brethren who came to Houston to raise the devil have finished their excavations and haven't found him." The brethren must be as blind as moles.

There was a sure-enough Democratic landslide at Fairview. A Republican majority of four to one was changed to a Democratic victory of more than two to one.

Texas Democrats have launched a presidential boom for Senator Culbertson, and Minnesota Democrats have begun to cheer for "Yon Yonson py Yimminy." Four years is a long time for any man to stand in the spotlight. If there is a defect in him it will be discovered.

**YOUNG LADY SUICIDED.**

Miss Lena Murchison of Iola Drowns Herself in a Stock Tank.

As a result of despondency Miss Lena Murchison, residing with her parents near Iola, Grimes county, committed suicide by drowning in a tank of water near her home Tuesday afternoon.

The report was current in this city Friday that the young lady had been murdered, but the facts, as learned from Iola parties in the city Friday night are to the effect that the lady who was about 19 years of age, killed herself, following the receipt of a letter from her affianced who is now in north Texas. The young lady's father is said to have objected to the marriage of his daughter at the time because of the unsatisfactory condition of her health.

While members of the family were absent from the house, she walked to the tank, attached the pea from a stillard scale to her neck, drew a stocking over her head, and threw herself into the shallow water. Her prolonged absence prompted a search which revealed a portion of her skirt floating on the surface of the water. The discovery was made by the brother of the unfortunate young woman.

The body was recovered from the water, and the remains were interred Wednesday.

DR. J. S. PAUL.

One of the Leading Specialists of the South is in the City and will Open Offices at Once—With His Original Methods and Appliances Cures Hundreds where others fail—His Specialty Covers All Long Standing and Deep Seated Diseases of Men, Women and Children.

## PARKS & WALDROP

THE CLOTHIERS

**Feeding Hulls and Meal.**

In conversation with Mr. J. Webb Howell, manager of the Bryan Cotton Oil and Fertilizer company, The Eagle reporter learns that more hulls are being used for feed and less seed than was ever known. That the farmers are changing their method of feeding is very evident by the number that are hauling seed to the mill and taking back hulls and meal. Some farmers find it profitable to haul seed twenty miles and haul back hulls and meal. Perhaps two of the oldest farmers in Brazos county are Messrs. D. S. Lloyd and Mark Wilcox, who were induced to try hulls and meal, and were so well pleased with the change that this year they will feed nothing else.

Misses Addie Lamb and Carrie Myers of Iola, Grimes county, were in the city Thursday. Miss Lamb left on the I. & G. N. for Mart at noon, where she will visit her brother, Mr. Arthur Lamb, who is following agricultural pursuits in that section.

Buy your tickets for the A. & M. vs. Varsity football game at Houston from Parks & Waldrop, the clothiers. 289

**"Singin' Skule Begimment."**

The ladies of the Guild of St. Andrew Episcopal church have arranged with Mr. and Mrs. J. Bassett Willard of Cincinnati for a date with their funny and very popular entertainment entitled the "Singin' Skule Begimment" and have fixed on the date of December 7 at the Grand opera house. This entertainment has been a very great success in all parts of the country. It is a delicious compound of pure, clean, wholesome, jolly fun. It is not all singing, but mixed in with a lot of bright, pretty, catchy songs and spirited choruses will be found a number of funny character impersonations and other features in greater number than one would imagine could be crowded into one single performance. All the coaching and drilling will be attended to by Mr. and Mrs. Willard, who will also play the leading comedy part. 287-289

Mrs. Johnnie Koppe, residing some ten miles north of town was in the city Friday morning. Mrs. Koppe has many friends in this city, to whom her visits are always most pleasurable.

Mr. and Mrs. H. F. Payne of Benchley were in the city Friday. Mr. Payne is a leading merchant and citizen in his community, and the visit of himself and Mrs. Payne was a source of much pleasure to Bryan friends whom they met while here.

Of course you are going to the great game in Houston. Tickets at Brandon & Lawrence's. 288-291

For Sale—Span of well-matched and well-broke young work mules, about 14 hands high, 4 and 5 years old. J. B. P. Graham, Harvey, Texas. Will show mules in Bryan Saturday. 287-289

**Notice to Hunters.**

## FIFTEEN YEARS GIVEN.

### Pathetic Scenes Attend the Sentencing of Morse.

New York, Nov. 6.—Charles W. Morse was sentenced to fifteen years' imprisonment by Judge Hough in the United States court. Sentence on Curtis was suspended. The sentence on Morse is based on the verdict of guilty of misapplication of funds of the National Bank of North America and making false entries in the books of that bank. It is understood that if Morse goes to prison he will be confined in the government prison at Atlanta.

Charles W. Morse, at one time an ice king, steamship king and controlling force in a long string of banks in this city, whose personal fortune was little more than a year ago estimated at \$22,000,000, and Alfred H. Curtis, former president of the National Bank of North America, spent Thursday night in a cell in the toms prison. When they arose simultaneously with hundreds of others in the grim city prison they faced a possibility of many years behind iron grated doors. Sentence had been deferred to Friday when the jury returned the verdict, but it was only a few hours away when they tumbled out of the rude bunks in their narrow cells at the call of command from the guard who patrolled the corridor on the "Federal tier." Both Morse and Curtis passed a fairly restful night, according to prison guards.

Anticipating an unusually large number of spectators when court opened Marshal Henkel took Morse and Curtis to the building nearly two hours before sentence was to be pronounced. Both men appeared to be in much better spirits than when they left the court room Thursday night. Mrs. Morse reached the court room soon after her husband and took her place at his side. Mrs. Curtis came about an hour later.

Ten days' stay of execution of sentence on Morse was granted by Judge Hough. It is understood that notice of appeal will be filed immediately. Morse was paroled in the custody of Marshal Henkel pending any action that may be taken during the ten days' stay granted by the court.

The scene in the court room when sentence was pronounced by Judge Hough was a most dramatic one. The wives of the two prisoners, who had been constant attendants at court during the entire trial, were present early as if anxious to cheer their husbands by their presence in the trying ordeal which confronted them. When the real test came, however, it was the husbands and not the wives who proved the comforters. Morse sat like a stone when he heard the words that condemned him to prison. There was scarcely a tremor of an eyelid. Curtis, too, accepted the news which came to him—good news in his case—with the same lack of emotion that characterized his former chief.

As the truth of what Judge Hough's words meant flashed through her mind Mrs. Morse, who through all the trying days of the trial, preserved an unruffled demeanor, collapsed in her seat, buried her face in her hands and began to sob convulsively. Still weeping she was led away to an ante-room, where a moment later her husband held her in his arms and sought to console her.

Nor was Mrs. Curtis any more prepared for the nervous strain than Mrs. Morse. When the judgment of the court was pronounced she fainted and would have fallen had not kindly hands supported her.

### President May Succeed Platt.

Washington, Nov. 6.—That President Roosevelt may be the successor of Thomas Platt in the United States senate is considered by many in Washington not at all improbable. Those who regard this possible declare they have the assurance from the president himself that he is not entirely averse to senatorial office under conditions as they will be after March 4. So far as known he has made no recent expression on the subject, but he said that with Taft as president he would not feel the same hesitancy about entering the senate he would feel with some one in the white house with whom his relations are not as intimate as they are with Taft.

### Invited to Hot Springs.

Hot Springs, Ark., Nov. 6.—The city of Hot Springs hopes to induce Mr. Taft and his family to spend their post-natal vacation here.

A telegram was sent to General Powell Clayton at Washington as follows: "signed by Mayor Todd and President Rix of the Business Men's league:

"Our citizens are unanimous in asking you to invite Hon. W. H. Taft to visit Hot Springs for rest and recuperation after his great and successful campaign. You can assure him that the weather of November and December is ideal, and there is golf for his recreation, and the baths are what he needs to put him in condition for his arduous duties."

### Large Gains For All.

Jackson, Miss., Nov. 6.—Thirteen of the seventy-eight counties have reported to the secretary of state the result of Tuesday's balloting for president. The totals are: Democrats, 11,823; Republicans, 1,015; Populists, 363; Socialists, 246. These are one-sixth of the counties in the state, and in the event the same ratio is maintained everywhere the vote will reach about 80,000. Seventy thousand will be Democratic, 6,000 Republican, 2,100 Populists and 1,400 Socialists, all showing large gains for all parties.

### Cameron Carries Every Precinct.

Phoenix, Ariz., Nov. 6.—With practically complete returns from every county but one, Ralph Cameron, Republican, is elected to congress, defeating Marcus A. Smith, Democratic incumbent, by 500 votes. Cameron carried every precinct out of thirteen counties.

### New York Egg Receipts.

New York, Nov. 6.—Egg receipts Thursday were 10,998 cases.

## CITY SCHOOLS.

Hon. W. C. Davis was a distinguished visitor at the schools this week. We were delighted to have him with us.

Mr. Barrie, of Parris, Texas, spent some time with us. He has had several years experience in school work, and manifested much interest. Miss Sarah Allen called at school one day. We were glad to have her. Miss Leila Suber spent yesterday afternoon with the schools. She made an enviable reputation as a teacher in the city schools.

No outside announcements of any kind are permitted in the schools.

"It came to pass" though, that tickets to hear Frederick Warde in Julius Caesar were presented to all members of the ninth and tenth grades. No finer literary treat could have been had given them.

Miss Lindsey spent some time visiting the schools. She is a Baylor University school friend of Miss Weddington and a teacher of experience. We were glad she came.

The colored school, under Principal Landry is doing well. He is always working, studying, and planning for the good of the school, and is always ready to carry out his instructions to the letter.

Geo. W. Higgs.

### Whipped For Selling Peanuts.

Waverly, Tenn., Nov. 6.—Jesse Robinson, a farmer, living on the Tennessee river near Cuba Landing, was taken from home to the woods nearby and given a severe thrashing with hickory switches by some unknown parties, who also made his wife go with them to witness the punishment inflicted.

It is said that Robinson, who belongs to the Farmers' union, sold several sacks of peanuts a few days ago and this gave offense to his enemies. After wearing out several switches on him they made him take the stub ends of the switches with him in order that he might remember not to offend again.

### Likely to Abandon Demand.

Paris, Nov. 6.—The crisis between France and Germany, which arose over the arrest of German deserters from the foreign legion of the French army by French authorities at Casablanca has seemingly been dispelled. It is now apparent that Germany is ready to abandon her demand for the release of these men, and she excuses the action of the French soldiers who are alleged to have attacked the official German consulate at Casablanca.

### Several Probable Contests.

Washington, Nov. 6.—With the late returns from congressional districts throughout the country there are indications of a number of contests. So far as the returns now in from all the districts show the Republicans will have a working majority of forty-one in the next national house of representatives, the figures standing: Republicans, 216; Democrats, 175, against the present membership of 223 Republicans and 166 Democrats and two vacancies.

### Traces Daughter by Paintings.

New York, Nov. 6.—After searching for eighteen years for his daughter, Thomas P. Smith of 182 La Salle street, Chicago, believes he has found trace of her in two paintings by Will Grefe, a New York artist. Mr. Smith has communicated with the artist, who is now trying to locate the model who posed for the figures.

### Couple Reconciled.

Omaha, Neb., Nov. 6.—Abbie Rice, the star witness in the Dr. Rustin murder case, has become reconciled to her husband. Mr. Rice announces that at the close of the trial of Charles Davis, charged with killing Dr. Rustin, they will go to some place where they are not known and begin life anew.

### NOTICE TO HUNTERS.

All persons are warned against hunting or trespassing on my pasture, southwest of Bryan. All found therein will be prosecuted.

J. W. ENGLISH.
